A choral club has been organized at Vallejo.

The lumber trade is brisk in Truckee district.

Live-oak is plenty in Marysville at \$6.50 per cord.

The Petaluma fruit-dryer was destroyed by fire on Tuesday night. Loss, \$2,000; uninsured.

The expenses of the San Joaquin Fire Department for the year ending September 18th, 1874, aggregated \$9,816.31.

The name of the Grange recently organized at Martinez is Alhambra, and not Alabama, as previously reported.

It is reported that a large number of wealthy citizens of Alabama contemplate immigrating to the Santa Clara valley.

A large quantity of fruit is being dried in Nevada county than ever before. It is all done by placing it in the sun.

There are not more than fifteen or sixteen houses in the town of Pine Flat, Napa county, and seven of them are saloons.

The Trustees of Nevada City will not light the street-lamp owing to the exorbitant prices charged by the gas company.

The Nevada City water works are being repaired, and the town is placed on short allowance until after the first rains.

Three car-loads of fruit were shipped from San Jose on Tuesday—one to Helena, Montana, one to St. Louis and one to Chicago.

Large quantities of four-foot wood have been floated down the Feather river and caught by a boom across the river near Marysville.

Ten tons of telegraph wire are lying at Truckee. It is for the Western Union line and is destined to connect Sierra City and Downville.

The hop yield of the Santa Clara valley is very large this season. On Coo's ranch, near San Jose, there are 200 Chinamen engaged in gathering them.

The Napa City Library contains 1,000 volumes; but of the 263 members of the association, 200 take no interest in its affairs. A new set of officers was elected on Tuesday evening.

Two hundred and fifty men are at work on the railroad between Truckee and Blue Canyon. A large portion of them are engaged in putting down new ties and laying the steel rail.

The smug little craft for navigating the Feather river, which has been building the past season by the Orr brothers, is reaching completion. She is quite small, but promises to be very lively.

It is stated that to retain a physician in Berryessa valley, the residents are compelled to pay a fixed salary, for cases of sickness are so rare that the income from his practice would not suffice to support a family.

A Chinese cook attempted to murder Mrs. Cook at Coldstream, Nevada county, on Monday afternoon. The lady took a can of yeast from the hearth, which so infuriated him that he attacked her with a huge butcher-knife. The sounder set up a plea of emotional insanity.

Mr. Tobin, who has contracted to supply the brick for the Palace Hotel, San Francisco, was in Stockton on Tuesday, making arrangements with brick-makers to send forward all the brick they can manufacture as speedily as possible.

SOME of GRANT's backers say Gen. JACKSON once made up his mind to run for the third term. This is not so. JACKSON did not run. If he had ever made up his mind to do it, "by the Eternal," he would have carried it out.

"SAM PURDY" walked—or, rather, trotted—off with "Occident," as will be seen in our telegraphic news. It is reported that a large amount of money changed hands. This is very probable, as the heats were won and lost in just the right shape to cause people to lose money. "Occident" winning the two first heats was calculated to induce the average horse-race gambler to bet high that he would win the third heat and race. But as "Purdy" took the next three heats and the purse, "Occident" men were the losers. Horse racing is a very uncertain business anywhere, and in California it is exceedingly difficult for an outsider to tell which horse will win.

SOME idea of the immense increase of our commercial interests may be obtained from the fact that Superintendent HEWITT yesterday received a dispatch from San Francisco informing him that the steamer Orizaba had just sailed with five hundred and seventy-five tons of freight for Los Angeles. This is the largest amount of freight ever shipped by any one vessel for this port. We are informed that the six steamers running between Wilmington and San Francisco are not able to carry all the freight offered for down the coast. The officers say the amount is steadily increasing, and there is no doubt but that when the Panamint freight increases as it will in a short time, it will be necessary to add a couple more steamers to the line.

## Volume Three.

With the issue of this morning, the DAILY HERALD commences its third volume, and we improve the occasion to say a few words concerning the time past and to glance at the prospects of the future. When one cannot look on the record made in the light of approval it is perhaps the wisest and best to make the look as short as possible. The first volume of the HERALD was badly edited and, if possible, still worse managed. The craft was new and staunch, but it had youth, inexperience and indiscretion at the helm, and it was due more to good luck than good management that the voyage did not terminate almost before it began, in a disastrous wreck. Thanks to the toleration and good nature of the people, the HERALD lived through an unpopular administration and until its control was assumed by able and more experienced hands. From the commencement of the second volume its progress has been onward and upward. It is a rare thing for a newspaper involving the large current expenses of the HERALD to pay its way under two or three years, but during the last two months of the volume just closed the receipts have exceeded the expenses of the paper by several hundred dollars. We note a steady increase in the advertising patronage and circulation of the HERALD. We believe it is not claiming more than will be generally admitted when we say that the HERALD has done much—perhaps more than all of its contemporaries combined—toward advertising the advantages of Los Angeles valley, in soil and climate, over any other portion of the Pacific Coast, and we are in daily receipt of letters from people on the eastern side of the continent, who say that the knowledge which has created a desire to visit this country was derived from the HERALD or HERALD pamphlet. It has been the object of the HERALD in the past, and it will be its purpose in the future, to speak truthfully and earnestly of our local interests. Los Angeles valley is a broad field containing much to talk about, discuss and develop. We prefer to fill the HERALD's columns with articles descriptive of our rich soil and its astonishing products; of our rare climate and its wonderful effects on the human system; of our inexhaustible resources and the most practical modes for their development, and of the many flattering inducements offered to honest, industrious men and women to come here and build their homes among us, rather than deal out long homilies on national issues and affairs in Europe. The advocacy of the interests of Southern California in general and of Los Angeles Valley in particular is the mission of the HERALD. How well and acceptably to the people it has performed its task thus far, let its large advertising patronage and extensive circulation be admitted as evidence. The paper is not yet what we intended to make it, but it will improve in the full proportion of its support and encouragement.

## The German School Association.

We have interviewed the Mayor on the matter of his refusal to comply with the order of the Council with reference to the donation of certain letters to the German School Association. His Honor says he promised to sign, and still stands ready to sign, a deed giving the Association a lot 120 by 165 feet in size. He says he has not, and will not comply with the order of the

Council, because to do so would give away within a fraction of two acres of land owned by the city. He does not doubt but that to do the necessary grading in front of the property will cost almost as much as it is worth, but he cannot find a law or custom which will warrant the act of giving away so large an area of the city's land. Under the circumstances we would suggest to the Association the propriety of accepting the deed for the lot and asking the city to have the remaining lots, or so many of them as desired, sold at auction and bid them in. Under the circumstances, they would be knocked down at a nominal rate. We hope the Association will secure the amount of land they desire for the purpose and carry out their design of establishing a school on the kindergarten plan.

## Disgraceful Disclosures.

If further evidence were needed to prove the outrages that have been heaped upon the people of Louisiana and the villainous character of KELLOGG and the duplicity and venality of the men who for years have acted as the leaders of Congress, it will be found in the telegraphic news we publish this morning. The rascally usurper has been held in power by these leaders—these red-handed villains—of Congress. We say red-handed because these men are directly responsible for the blood shed in Louisiana since the usurper started on his career of lawless tyranny. CHANDLER receives \$10,000 for his services; CALEB CUSHING is paid \$3,000—\$2,000 for himself and \$1,000 for CHANDLER. BEN BUTLER, honest BEN BUTLER—who has the reputation of being a thief and seems determined that he shall not be belied nor falsely accused—thinks his services in Congress as the champion of KELLOGG ought to be worth \$3,000, and he modestly requests the remittance of that amount. These figures enable us to estimate the cost of a Congressional leader's services in a dirty job and a villainous outrage on the people, but we do not know the fee of a President in such a case. We hope GRANT's share in this detestable affair will also come to the light. Those transactions could hardly have transpired without his knowledge. If prominent Congressmen accepted fees as pettifoggers for an outlaw and their action received the sanction of the President, it is right and proper that the people should be apprised of the fact. The BRECHER-TILTON screaming farce has ended, and we ring up the curtain on a people's shame and a nation's disgrace.

## An Odd Fellows' Hall.

In Stockton the Odd Fellows' Hall is the largest and most imposing building in the place. In Vallejo the Odd Fellows have built a beautiful hall, which is already a source of revenue to the lodges owning it. The Odd Fellows of San Jose have just completed a splendid hall. Neither Stockton, Vallejo nor San Jose are as large in point of population, nor does any one of them contain a greater number of Odd Fellows than Los Angeles. Yet here the lodges meet in a rented, and we are told, not first-class hall. There are, we presume, some four or five hundred Odd Fellows in Los Angeles. There are three subordinate lodges and an Encampment. If our information is correct all are rich, or have considerable money in their treasury. This being the case, one naturally wonders why the Odd Fellows of this city are not the owners of one of the finest buildings in it. The Odd Fellows building in Stockton cost about one hundred thousand dollars. It was built on the corporation plan, the stock being all taken by the members of the order, and it is now paying a handsome profit on the money invested. That of Vallejo is the work of a few energetic Odd Fellows, who saw that they wanted a hall, and built it. On what plan that of San Jose was built we are not informed, but it was built by Odd Fellows. We wonder the Odd Fellows of Los Angeles do not build a hall that will be a credit to their energy, an ornament to the city and a source of revenue to those owning stock in it.

## I. O. O. F.

Meeting of the Grand Lodge of the United States in Alabama. As our readers have already been apprised by telegraph, the Grand Lodge of Odd Fellows of the United States met at Atlanta, Georgia, on Monday last. This is the first meeting of the Grand Lodge in the South since the war, and is hailed as calculated to infuse new life and energy in the order in the Southern States and to confirm the feeling of fellowship and brotherhood so desirable between the sections. The growth of the order in the North has been most rapid and gratifying, while in the South, owing to the peculiar situation of the country and the unsatisfactory condition of affairs, it has with difficulty been maintained. Without doubt the meeting of the Grand Lodge in the midst of the country will give new impetus to the prosperity of the order in that section.

The former officers of the Grand Lodge were M. W. G. Sire, C. A. Logan of Kansas; Dep. G. Sire, M. J. Durham of Kentucky; M. W. G. Sec. J. L. Ridgley of Baltimore; M. W. G. Treasurer, Joshua Vanzandt of Baltimore. On meeting the Grand Lodge elected the following grand officers for the ensuing term: M. W. Grand Sire, M. J. Durham (recently Deputy Grand Sire); D. G. Sire, John W. Stokes of Pennsylvania; M. W. G. Secretary, J. L. Ridgley; and M. W. G. Treasurer, Joshua Vanzandt, both re-elected.

## Fire in a Printing Office.

SANTA ROSA, Sept. 24.—At 9:30 last night a fire broke out in the composing-rooms of the Santa Rosa Press, and lasted about fifteen minutes. Considerable type was melted and damaged. Loss about \$5,000, which was fully insured in the Phoenix of Hartford.

## Latest Telegrams.

## EASTERN.

Condition of Affairs in New Orleans.—Contradictory Reports. New York, Sept. 24.—A dispatch to the Times states Kellogg, after the Federal authorities anticipate further disturbances, and are in frequent consultation as to the best means of defending the city in the event of an uprising of the White League. Beyond doubt another fight will result from any attempt on the part of the Kellogg people to search private houses for arms or to procure the leaders in the recent revolution. Kellogg yesterday telegraphed to Washington that he thinks the city in a very insecure condition; thinks rioting may be apprehended at any moment, and that the State will not remain at peace if the United States troops are withdrawn; that he had reason to know that the League movement was spreading into the adjoining States, and that the Order was rapidly increasing in numbers. The Times' dispatch also says that three United States vessels arrived in the Mississippi below New Orleans last evening, and the health officers ordered all of them to pass up to the city without quarantine inspection. A Washington dispatch to the Times, however, tells exactly the opposite story of the Kellogg reports to the General Government, and says he gives a rose-colored view of affairs in New Orleans—quite at variance with the accounts furnished by the Press.

Bad Reports from Louisiana Negroes. New York, Sept. 24.—A special to the Herald from New Orleans says: "The sudden and violent change of sentiment in the colored people since the Federal occupation is exciting serious apprehensions. Ladies have been grossly insulted while passing on the streets. Equally unpleasant reports have arrived from the country, and it is feared that unless some salutary measures are adopted the whole power of the Government will be required to keep the negroes within bounds. No violence has yet been reported, negro men and women confining themselves to bitter vituperation and horrible abuse."

## Fraudulent Importations—Germany and American Consuls.

New York, Sept. 24.—The Assistant United States District Attorney, who went to Europe last Spring to obtain evidence against importers, in the case of an alleged undervaluation, has returned. He says he found the German Government greatly incensed against this Government, because it was thought it had issued commissions to its consuls in Europe, authorizing them to call importers before them for the purpose of extorting information respecting duties made out in Europe. Acting upon that supposition, the German Government has informed the American Legation at Berlin if Consuls of this Government attempted to execute these commissions, their exequaturs would be revoked.

## A Sea Captain Convicted of Manslaughter.

BOSTON, Sept. 14.—In the United States Court to-day, George S. Peach, Master of the schooner St. Mary, was convicted of the murder of Kay Rogers, cook of the vessel. The affair occurred at sea, on Gloucester.

## Meeting of Army Board—Postmaster-General Jewell Lunched.

WASHINGTON, Sept. 24.—The Board of Army Officers meets here to-day to examine a report upon the qualifications of soldiers for promotion, which was brought before it for appointments as Superintendents of National Cemeteries. Ex-Postmaster-General King to-day gave a lunch in honor of Postmaster-General Jewell, which was attended by the President, members of the Cabinet and other prominent persons.

## Catherine Beecher on the Fight.

NEW YORK, Sept. 25.—Catherine Beecher has come to the relief of her brother in a scathing letter, in which she denounces the action of the author of all the trouble arising out of the scandal of Mrs. Tilton.

## Poor Chicago.

CHICAGO, Sept. 26.—Chicago merchants are not greatly alarmed at the action of the National Board of Underwriters and believe that risks will soon be taken again in that city as before.

## Naval Changes.

WASHINGTON, Sept. 25.—Midshipman John C. Caldwell is ordered to the Asiatic station by the steamer of Oct. 17th from San Francisco. Henry Erben, Jr., is detached from the naval rendezvous at New York and ordered in command of the Tuscarora and the Mare Island Navy Yard, Oct. 15th. Commander Geo. E. Belknap is detached from the command of the Tuscarora and ordered here to await orders.

## From Louisiana—Dillon and Gould.

CHICAGO, Sept. 26.—The New York Tribune publishes a series of private letters found in Kellogg's private office in New Orleans, which tend to show how he was secured in his position by Congress. Caleb Cushing drew \$3,000 from Kellogg and \$1,000 to Chandler. Ben. Butler writes him that he fee in the Louisiana matter ought to be \$3,000, and asks the remittance of that amount. Another letter from W. A. Chandler acknowledges the receipt of \$10,000, and asks for more. Other letters make still more startling revelations. They are not yet published, however. They implicate prominent men in Washington, including two Senators.

## President Dillon and Jay Gould are on the way to San Francisco.

FOREIGN. Spanish Affairs. LONDON, Sept. 25.—The Republican forces in Spain are trying to relieve Pamplona, and have met with several decisive successes. The Cuban Insurgents have been defeated at Pinaro Vigas. The loss was not great.

## SAN FRANCISCO.

Summary of the Races—Steamer from Sydney—Another Steamer for the Southern Coast. SAN FRANCISCO, Sept. 26.—The following is a summary of the general trotting race at Sacramento yesterday: Over 20,000 people witnessed the contest. Occident took the first heat in 2:21 and the second in 2:24. Purdy took the third heat in 2:24; the fourth in 2:24; and the fifth in 2:24—winning the race and money. Over \$150,000 changed hands on the race, and the excitement over the result was tremendous.

The steamer City of Melbourne, from Sydney and Fiji Islands is passing in. She was not expected before Monday. At Portland have arrived the ship

Kimber, from Rio Janeiro and ship Frank Jones, from New York. The steamer Wm. Taber will renew her trips to San Diego and Southern ports next week.

## ARIZONA.

PRESCOTT, Sept. 23.—A telegram from San Carlos yesterday advised us that there were 800 Indians present at the last muster. The males are all kept at work. Major Randall has been at the post on a tour of inspection and left early in the week. All was very quiet and orderly on the Reservation.

Advices from Phoenix by telegraph yesterday state that a small band of renegade Apaches had sneaked down on the herd of cattle grazing near Whitlow's ranch at Maryville, on Salt river. It was supposed, as the dispatch read, that the herder in charge of the stock had been killed or seriously wounded. The Apaches are reported to have been successful in getting away with the cattle. Lieut. C. D. Packhurst, Fifth Cavalry, commanding Camp McDowell, at once sent a detachment of troops to investigate the matter and follow the trail. It is believed the Indians are the same small band that recently murdered a miner in the mountains near Humboldt creek.

A party of white soldiers and Apache trailers, under guide Zeller, are out from Camp Verde, following the renegades and we have reason to expect that before the week is out these renegades and murderers shall have learned by personal experience the fate awaiting all Indians who abscond from their reservations.

## The State Fair.

SACRAMENTO, Sept. 24.—The stock was again paraded at 10 o'clock this morning at the race-track, and occupied the entire length of the track—one mile. Eastern men who were present say they never saw such a fine exhibition of horses and willingly award the palm to California.

The committees on awards are all appointed, and meet this afternoon at 1 o'clock.

A 9 o'clock this morning the party started from the Capital Hotel to the plowing match on Richmond's ranch, at U and V streets, between Twenty-fifth and Twenty-seventh streets.

The excitement continues with respect to the race to-morrow, in which Occident, Sam Purdy, and Blackbird contest for the special premium of \$5,000.

The pavilion this morning is crowded, mainly with ladies and their families, to avoid the crush of the evening session. Visitors continue to crowd in on the railroad. The train at noon brought up quite a large company from San Francisco, and farmers' teams have poured in this morning from the surrounding country in unprecedented large numbers.

It will serve in the Library as an able opponent to Deism. "Our Planet," lately donated by Mrs. Thos. Hall recently gave the Library a copy of "Memoir of the Prince Consort, by her Majesty, Queen Victoria."

The election in the Lyceum last Friday night resulted in the choice of the following officers: President, J. J. Ayers; First Vice-President, Prof. Lawlor; Second Vice-President, D. J. Dingman; Secretary, Chas. Binford; Corresponding Secretary, T. D. Maloney; Treasurer, L. F. Quinby. There was an error in our report of Friday evening's proceedings, concerning the debate and the names of those participating in it. The affirmative was argued by Messrs. Dingman and Maloney, and the negative by Mr. Binford. The question was decided in the affirmative by a vote of the house. The company were also favored with a recitation by Mr. J. H. Bland, which we neglected to mention.

Several of our limbs of the law left the city yesterday to attend the session of the Supreme Court in San Francisco. It happens that the Supreme Court adjourned on the 23d of this month and doubtless the several legal gentlemen will find themselves badly sold when they reach their journey's end.

Mr. P. Lunney, Main street second door from corner of Court, has one of the finest stocks of family groceries and provision, wines, liquors, and cigars to be found in the city. Mr. Lunney is well and favorably known for his fair dealing and those who buy of him once remember him with a second order.

Prof. Snyder has succeeded in making up the programme for his entertainment and it will be published Tuesday morning. Our most accomplished amateurs in the musical line have volunteered to assist the Professor and in addition an original poem will be read by a gentleman well known here in literary circles.

It may be that you are a married man, or perhaps you are single, but in either case you sometimes feel a sort of "goneness"—a qualm of the appetite, as it were. In the event of such an attack, you should go to Dr. Goldsmith, next door to Wells, Fargo & Co.'s Express. Smoke one of his fine Havana cigars and you will be a new man.

## Miss Fannie Marston.

Miss Marston gave two seasons of concerts in Sacramento on a similar basis to the ones proposed here. Over \$3,000 worth of these season tickets were taken among the most influential citizens including Governor Booth, all the State and county officers, bankers, merchants, and professional people. She also gave a number of seasons in San Francisco and the subscribers and purchasers were among the most prominent citizens, including D. O. Mills, Balston, Lathrop, Friedlander, and over two thousand of the wealthiest people. These the members of the two stock boards, taking over one thousand dollars worth of tickets alone. There are many advantages to patrons in a season of entertainments over one or two disjointed ones, as it enables the givers to present finer entertainments at less expense and offers to the music loving people a greater variety of music at a cheaper price. Get your tickets at Brodick's on Monday for the season, as people all over the coast who have heard Miss Marston once, never lose the chance of hearing her the second and third time. It is impossible to hear but a small portion of her pieces in one evening. She will be supported by first-class talent, and proposes to give a series of the most enjoyable entertainments ever offered to this community. She is looked upon in California as a second Maria Callas, and as Madame Agostini's successor. Miss Marston is the only California prima donna now on the stage, and is deserving of especial patronage, because she is the only musical celebrity that California can lay claim to.

## LETTER FROM NIETOS.

The Land Sale—Wheat—Irrigation—Schools—Hotel—Still Flourishing.

EDITOR HERALD: At the public sale of town lots held in Nietos on Tuesday, the 23d inst., twenty-eight lots were sold, at prices ranging from \$30 to \$200 each. The sale was then adjourned to Tuesday, Oct. 13th, when it will be resumed in Los Angeles. Many choice lots yet remain unsold. Those who want them should not fail to attend the sale, and thus obtain eligible lots in the thriving young city of Nietos at reasonable rates.

## WHEAT.

A sample of wheat raised by Mr. Ramirez on mesa land at Old Los Nietos has for several days been on exhibition at the depot. The wheat is of the Sonora variety, the grain small, clean and full, and the yield about 70 bushels to the acre. The experiment of Mr. Ramirez has been eminently successful and goes to show that the mesa land in our vicinity is admirably adapted to wheat raising, which will hereafter become an important branch of industry in Los Angeles county.

## IRRIGATION.

The subject of irrigation is one of the most troublesome and vexatious with which farmers and fruit-raisers have had to contend the present season. Owing to the want of system that has prevailed heretofore, the ditches were not properly cleaned out and repaired in the Spring and consequently the greater part of the water has been suffered to run to waste in the river. The crops in some localities have been very materially injured and thousands of young fruit trees have been kept alive only by the slow and laborious process of watering them by hand.

## SCHOOLS.

One of the most satisfactory evidences of progress in our vicinity is the construction of a neat, commodious and well furnished school-house, in Alameda School District. Such a building has long been needed, and the evidence of the liberality of the citizens as well as the energy and public spirit of the Trustees of that District. The building is fifty-two feet long, thirty feet wide and sixteen feet high in the clear. Two ante-rooms are attached to the sides, each 10x12 feet. The main building is divided into two apartments by a folding partition, and on public occasions can easily be thrown into one large room. The walls are plastered to the height of four feet, and the remainder of the space, together with the tops of the rooms, is hard finished throughout. The Trustees have procured forty double desks of the most approved modern school furniture for use in the school, and design that when the building is fully completed it shall be one of the most convenient and elegantly furnished public school houses in the county.

The school in Silver District is in a flourishing condition, under the instruction of Mr. Butterfield and Miss Stockton. The average attendance is about one hundred. The school is graded, and the course of instruction thorough and practical.

## HOTEL.

The foundation of a new hotel has been laid at Nietos, and we are assured that a superstructure worthy of the place will be erected as soon as possible.

The town is rapidly increasing in extent and population, and the prospects of the Los Nietos settlement were never more favorable than at the present.

Nietos, September 26th.

[Written for the Herald.]  
TROPICAL MIDSUMMER.

BY HANK WAGONER.

Ragged links of purple mountains  
Lean against a vaulted sky,  
With azure depths soft as the mist  
That in the early mornings rise,  
Ascending heavenward.

A spiral swirl  
Of airy hue lifts winding up a hill;  
Caught by the windy gust that pours  
Adown the canon, waving upon its way  
The sultry whirlwind.

Now the sun has cleft the ether, and,  
With golden strides, goes mounting into day,  
Twining around the lofty mountain peaks  
Broad belts of amethyst. The plaintive surges  
Sigh upon the silence, while in the distance  
Lastly portrayed, the white sails flap  
Against their masts that pierce the clouds.

The sea  
Is silver spangled: With its tiny waves  
It glints against my vision through the bars  
Of golden sunshine. Upon the myriad pool  
Last night, the white sails flap  
Against their masts that pierce the clouds.

Now it beats in sobbing monotone  
And then receding, in its tireless way  
Like the days of time, or like the ages  
Of eternity, still comes and goes  
And comes to go again.

The sunny days are purple, ripe  
With fields of fruited vine;  
The air is sweet with blossoms hung  
Upon this lower of mine.

The pepper trees hang listless leaved  
On lazy, drooping boughs.  
The shadows fall on idle me  
Breathing my Summer vows.

Now the sun beams in the heavens,  
The clouds float in the sky,  
I know that angels hover o'er these  
Ever peaceful ways;

My feet are in the roses,  
And my forehead to the breeze;  
And I bless you and I bless you brightest,  
Happiest tropic days.

San Fernando, Sept. 25th.

The San Jose Mercury says that an acre of ground planted in Havana tobacco—a fair crop is 1,200 pounds will, after deducting the cost of raising, eight cents per pound, leave a net profit of \$1.104 per acre; that is, calculating the crop as worth one dollar per pound, which is the current price.
